Whom Do You Elect?

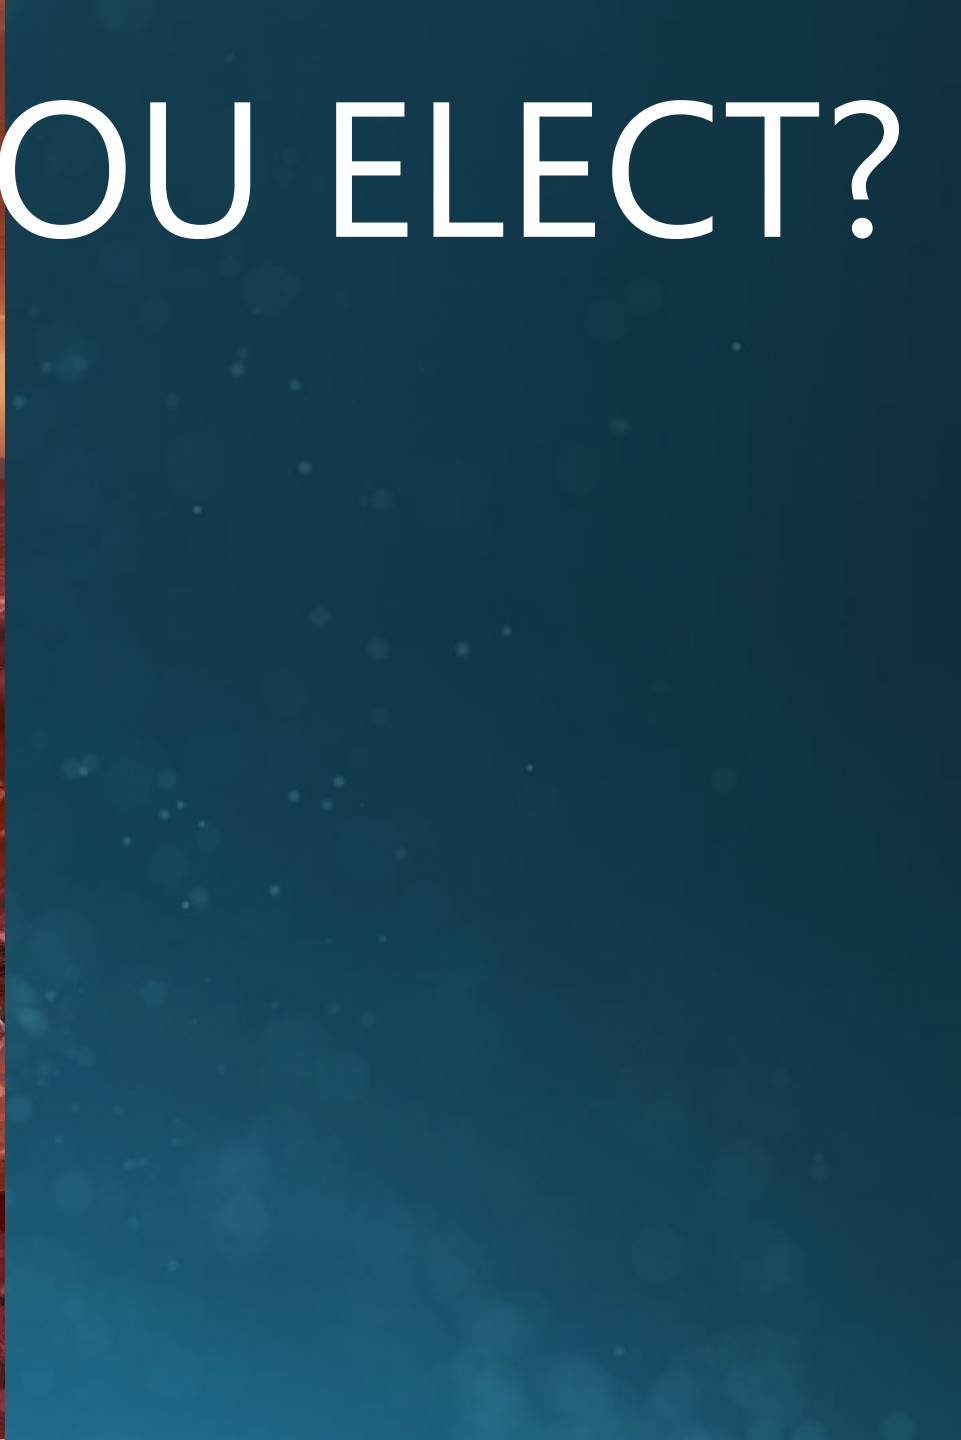

It is time to choose whom you will serve. In this video, we show how this time of elections is also a time to elect your eternal King. Will your vote be for He whose throne is the throne of sacrifice at the cross, or will it be he who sits on the throne of the beast. Be sure to watch until the end, when an age-old mystery of Revelation is expounded with simplicity, for its time has come to be understood.

The Great Earthquake

The great city of spiritual Babylon represents the world empire of Bible prophecy. This could refer to the Old World, as the first beast symbolized in Revelation 13:1–10, or it could symbolize the whole world, Old and New (including the second beast of Revelation 13:11–17). To see how Babylon was hit, we need to identify which of these two cases is meant here.

The fall of a tenth part of the city suggests one of the ten divisions of either the ancient empire or the modern one: either one part of the Roman Empire that was divided into ten parts, of which the countries of Europe remain, or one part of the world as divided into ten parts by the Club of Rome.^[6]

We can narrow down the meaning in this context by the fact that the moon plays the critical role as the “seat” or “throne” that is hit. Spiritual Babylon (i.e. Satan) has two thrones on earth: his religious seat in Rome, and his executive seat in Germany, where literally “the Throne of Satan” (the Pergamon altar^[7]) resides in the Pergamon Museum in Berlin. This is the actual “seat of Satan” mentioned in the letter to the church of Pergamos, which was relocated to Berlin:

*I know thy works, and where thou dwellest, **even where Satan's seat is: and thou holdest fast my name, and hast not denied my faith, even in those days wherein Antipas was my faithful martyr, who was slain among you, where Satan dwelleth.** (Revelation 2:13)*

It is in Germany where Satan’s executive plans are often hatched, then taken from there to be implemented in other locations.

Thus, whether we consider the religious seat or the executive seat, either way we are directed to Europe (the Old World) as the “city” of which a tenth part falls in the earthquake. And to identify the event thus described, all we need to do is scan the news for June 4 or 5 coming from either the Vatican or Berlin—the two possible seats. The result?

The **Pergamon Altar** (**Ancient Greek**: Βωμός τῆς Περγᾶμου) was a monumental construction built during the reign of the **Ancient Greek** King **Eumenes II** in the first half of the 2nd century BC on one of the terraces of the acropolis of **Pergamon** in **Asia Minor** (modern-day **Turkey**).

The structure was 35.74 metres (116' 31/32") wide and 33.4 metres (109' 6 5/8") deep; the front stairway alone was almost 20 metres (65' 11/16") wide. The base was decorated with a **frieze** in high **relief** showing the battle between the **Giants** and the **Olympian gods** known as the **Gigantomachy**. There was a second, smaller and less well-preserved high relief frieze on the inner court walls which surrounded the actual fire altar on the upper level of the structure at the top of the stairs. In a set of consecutive scenes, it depicts events from the life of **Telephus**, legendary founder of the city of Pergamon and son of the **hero Heracles** and **Auge**, one of **Tegean** king **Aleus's** daughters.

In 1878, the German engineer **Carl Humann** started official excavations on the acropolis of Pergamon, an effort that lasted until 1886. The relief panels from the Pergamon Altar were subsequently transferred to **Berlin**, where they were placed on display in the **Pergamon Museum**.

1936 – 1986: Pergamos

And to the angel of the church in Pergamos write; These things saith he which hath the sharp sword with two edges; I know thy works, and where thou dwellest, even where Satan's seat is: and thou holdest fast my name, and hast not denied my faith, even in those days wherein Antipas was my faithful martyr, who was slain among you, where Satan dwelleth. But I have a few things against thee, because thou hast there them that hold the doctrine of Balaam, who taught Balac to cast a stumblingblock before the children of Israel, to eat things sacrificed unto idols, and to commit fornication. So hast thou also them that hold the doctrine of the Nicolaitans, which thing I hate. Repent; or else I will come unto thee quickly, and will fight against them with the sword of my mouth. He that hath an ear, let him hear what the Spirit saith unto the churches; To him that overcometh will I give to eat of the hidden manna, and will give him a white stone, and in the stone a new name written, which no man knoweth saving he that receiveth it. (Revelation 2:12-17)

In the classical cycle of churches, Pergamos was "the compromising church". Likewise, when Hitler demanded that all children should go to school on Sabbath, the SDAC agreed. The trial of God that started in 1936 was especially about the Sabbath commandment. The SDAC compromised ([see the circular letter of E. Gugel](#)). But of course, the other questions about military service came to trial again as well.

The SDAC corrupted the gospel, compromising with the Nazi government by agreeing to all its demands. The SDAC literally repeated the prophecy of Pergamos.

Treaty Between the Vatican and Nazi Germany (1933):

One of the most significant formal ties between the Vatican and Nazi Germany was the *Reichskonkordat*, signed on July 20, 1933. This was an agreement between *Pope Pius XI* and the Nazi regime, represented by *Franz von Papen* (a Catholic politician) and *Cardinal Eugenio Pacelli* (the future *Pope Pius XII*), then the Vatican Secretary of State.

The *Reichskonkordat* aimed to protect the rights of the Catholic Church in Germany, particularly in education and religious practice. In return, the Church agreed not to engage in political activities, which was seen by some as a form of appeasement or non-interference. The agreement has been widely criticized because it was signed shortly after Hitler came to power, seemingly legitimizing the Nazi regime in the eyes of many.

Controversy: Critics argue that the treaty gave Hitler diplomatic legitimacy and weakened internal Catholic opposition to the regime. However, some Church historians argue that it was an attempt to safeguard the Church's interests under a hostile government.

German far-right AfD party wins landmark victory in Thuringia region

Germany's far-right AfD party took between 30.5 percent and 33.5 percent of the vote in elections in the eastern state of Thuringia, according to exit polls, marking the first time in Germany's post-World War II history that an extreme-right party has won a state election. The conservative CDU came in second place with around 24.5 percent of the vote.

The German election year continued on September 1, 2024, with two important state elections in the East German states of Saxony and Thuringia. Since political dissatisfaction with the current direction of the federal government coalition is most evident and drastic in East Germany, this is perhaps one of the most significant political events of the year in Germany. The German-Hungarian Institute hosted a live broadcast of the event at MCC, and, with the help of invited experts, also analyzed the preliminary results.

German leaders react to far-right surge in Thuringia, Saxony

vor 2 Tagen — German Chancellor Olaf Scholz said it was a "bitter" election night for his center-left SPD. He urged lawmakers in both states to seek ...

In the context of the recent elections in Thuringia and Saxony, and the concept of the tongue symbolizing the ability to "make laws" or govern effectively, the results of these elections—especially with the significant rise of the right-wing AfD (Alternative for Germany)—may complicate the ability of the traditional leading parties, such as the CDU (Christian Democratic Union) and SPD (Social Democratic Party), to pass legislation.

The tongue, as a biblical symbol for speaking and creating laws, becomes relevant when considering the weakened political position of the SPD and CDU. The election results, particularly in states like Saxony and Thuringia where the AfD has gained ground, mean that the traditional parties may now face difficulty in advancing their legislative agendas. This could lead to political paralysis or situations where they are forced to negotiate or compromise with opposition forces, particularly in areas where coalitions or majority agreements are necessary for passing laws.

From a legislative perspective, the rise of parties like the AfD could indeed create a scenario where making laws becomes more difficult for the CDU and SPD, as they now face more vocal and empowered opposition, potentially leading to legislative gridlock or weakened policy-making capabilities.

The "**sore loser effect**" refers to the behavior of individuals or groups **who lose an election or competition and refuse to accept the results**. Instead of acknowledging their defeat, they cast doubt on the legitimacy of the process, question the fairness of the outcome, or claim that the contest was rigged or unfair in some way.

This behavior is often observed in politics, where losing candidates or parties allege electoral fraud or irregularities without providing substantial evidence. The "sore loser effect" undermines confidence in democratic processes and can lead to increased societal division. **The term gained particular prominence after the 2020 U.S. presidential election, when Donald Trump and his supporters contested the results, claiming widespread voter fraud despite a lack of evidence to support these claims.**

In essence, the "sore loser effect" reflects an unwillingness to graciously accept defeat, which can destabilize the democratic system and erode public trust in elections.

And he that **blasphemeth the name of the LORD**, he shall surely be put to death, and all the congregation shall certainly stone him: as well the stranger, as he that is born in the land, when he blasphemeth the name of the LORD, shall be put to death.

(Leviticus 24:16)

Third Commandment:

Thou shalt not take the name of the LORD thy God in vain; for the LORD will not hold him guiltless that taketh his name in vain.

(Exodus 20:7)

And when they entered unto the heathen, whither they went, **they profaned my holy name**, when they said to them, These are the people of the LORD, and are gone forth out of his land. But I had pity for mine **holy name**, which **the house of Israel had profaned among the heathen, whither they went.**

(Ezekiel 36:20-21)

Germany's Ruling Parties Suffered Major Losses in the East

Note: Parties marked with asterisks are part of the ruling national coalition.

Given that the **Christian Democratic Union (CDU)** bears "Christian" in its name, any failure by its leaders or policies to uphold **Christian values** or to misuse the name of God for political gain could be viewed as blasphemous in the biblical sense. If the party or its leaders make decisions or statements that **contradict Christian teachings** while invoking God or Christianity for their own purposes, it could be seen as a form of blasphemy, as they are misusing the name and principles associated with God. Blasphemy, in this context, could be interpreted as failing to live up to the ideals of Christ while still claiming to represent those values, especially if the party acts in a way that contradicts biblical teachings.

The Queen of Hearts in Lucifer's Game

There is probably no other G20 head of state who has been to the Vatican as often as she has in the few years of Pope Francis' reign. We should have already been stunned, as the following news hit the press:

June 17, 2017 – DERWESTEN.de

Pope Francis received Merkel in his private library. It was already the **fourth private audience** of the two and the **sixth meeting since Francis' election in 2013**. The pope has received Merkel **relatively often**. **She is probably the most frequently invited of all heads of state.** [Translated; see also this English article from [Deutsche Welle](http://DeutscheWelle)]

June 13, 2017 – domradio.de

Angela Merkel's **first audience in May 2013, two months after Francis took office**, was a small sensation at the time. That is because it was in fact an unwritten law that for reasons of neutrality, the pope did not invite any top politicians to the Vatican who were currently in an election campaign. Now her next audience with the popular pope on June 17, which is already her fourth, is even closer to the election of the lower house of the federal legislature of Germany in September. [translated]

It looks like we have to set our sights on Germany! Each of these news articles is a little jewel because they show the very close relationship between Francis and Merkel. And that is no accident; there is a plan behind it. Merkel has a special mission to carry out. Just as Obama was the “child” of Benedict, the German Chancellor, Angela Merkel, is Satan’s own marionette. Since we already know what Satan has in mind, and also that he especially uses the “kings” of the G20, it is already obvious now that the recent G20 summit in Hamburg will probably turn out to be what we’re looking for. Her visit to the Vatican in June was something like one last meeting to receive the last work orders and personal instructions from Satan to reach the desired goal—acceptance of his mark in the Old World’s leading nation.

Now we recognize the deeper meaning of the colorful strands of the G20 knot. June is widely known as the **Gay Pride** month of the LGBT movement. And the message from Theresa May as a member of the G20 party in Hamburg is that the governments of the most influential countries on earth will continue to do everything in their power to reach full equality for their proud homosexual fellow citizens. From the text, we also learn that people PROMOTE the equal rights process through these parades. This coincides with Revelation 13's description of the introduction of the image of the beast, where the people themselves demand it to be made. Another article about this subject makes the point in closing: **"The recent adoption of Marriage for All in Germany should be mentioned."**^[48] Yeah, so that's it! That's where we have to look, because the whole "celebration" revolves around this topic of the acceptance of the mark of the beast.

The vote in the German national parliament (*Bundestag*) took place on Friday, June 30, 2017—still punctually before the end of the LGBT movement's Pride month. And this is also perfectly between Merkel's last visit to the Vatican and the G20 celebration. I noted earlier that Merkel must have something to do with it, and that we must discern by her fruits what she secretly discussed with Satan in the Vatican.

Let us ponder the following question: How can it be that especially the Christian parties (**Christian** Democratic Union of Germany, **Christian** Social Union in Bavaria) agree to same-sex marriage? That is not usually possible! As a Christian, one should know what kind of marriage God blessed in paradise! Someone must have played a dirty trick again!

It was even a really good trick, which was a cause for proportionate excitement! The German people were deceived and fell for the trick...

But before that, Chancellor Merkel had two problems to cope with. First of all, the vote regarding homosexual marriage was not even on the national parliament's agenda. Secondly, there is **party discipline** involved, which means that members of each party are "obliged" to vote as a group on a given topic. Since a party with Christian values cannot easily vote against marriage as God blessed it,^[49] Merkel also faced this virtually insurmountable problem.

Now we can confidently wonder... To whom did she go for advice in her distress, and to especially seek a blessing for the success of the vote? To Pope Francis, of course, who had also instructed her to introduce same-sex marriage in Germany.

2015 European migrant crisis

Main article: 2015 European migrant crisis

See also: Wir schaffen das

Throughout the course of the [European migrant crisis](#), Merkel encouraged cooperation between EU member states, urging that Europe needs to act "as a whole".^[125]

In late August 2015, at the height of the crisis, Merkel's government suspended the [Dublin Regulation](#), which stipulated that asylum seekers must seek asylum in the first EU country they arrive. Merkel announced that Germany would also process asylum applications from Syrian refugees if they had come to Germany through other EU countries.^[126] That year, nearly 1.1 million asylum seekers entered Germany.^{[127][128]} Merkel coined the phrase *Wir schaffen das* (literally 'We can do this') around this time.^{[129][130]}

Junior coalition partner and Vice Chancellor [Sigmar Gabriel](#) said that Germany could take in 500,000 refugees annually for the next several years.^[131] German opposition to the government's admission of the new wave of migrants was strong and coupled with a rise in anti-immigration protests.^[132] Merkel insisted that Germany had the economic strength to cope with the influx of migrants and reiterated that there is no legal maximum limit on the number of migrants Germany can take.^[133] In September 2015, enthusiastic crowds across the country welcomed arriving refugees and migrants.^[134]

Merkel in a CDU campaign poster, 1995

The migrant crisis spurred right-wing electoral preferences across Germany with the Alternative for Germany (AfD) gaining 12% of the vote in the [2017 German federal election](#). These developments prompted debates over the reasons for increased right-wing populism in Germany. Some researchers have argued that increased right-wing preferences are a result of the European migrant crisis, particularly the increasingly common perception that refugees constitute an ethnic and cultural threat to Germany.^[149]

Angela Merkel and Pope Francis have both played notable, **though different, roles in shaping the discourse around open borders and migration within the European Union (EU)**, particularly during the 2015 European migrant crisis.

Angela Merkel's Role:

Merkel's "Open Door" Policy:

- In 2015, at the height of the European migrant crisis, then-Chancellor of Germany *Angela Merkel* **made the controversial decision to allow over a million refugees, mainly from Syria, Iraq, and Afghanistan, to enter Germany. This became known as the "open-door" policy.** Merkel famously stated, "Wir schaffen das" ("We can do this"), signaling Germany's readiness to accept and integrate a large number of refugees.
- **Her decision had a profound impact on the EU's response to the crisis, as Germany became the main destination for many refugees, influencing other EU countries' policies.** This decision caused division within the EU, with some countries like Hungary and Poland opposing such open borders for migrants.

Schengen and EU Policies:

- Merkel's policies on refugees aligned with the broader principles of the *Schengen Agreement*, which promotes free movement within the EU. However, the migrant influx also led to discussions about the sustainability of Schengen, as several EU countries temporarily reintroduced border controls in response to the crisis.
- While Merkel did not create open borders in the EU, **her leadership during the crisis emphasized the importance of maintaining open borders within the Schengen Area, while also accepting refugees from outside the EU.**

Angela Merkel and Pope Francis have both played notable, **though different, roles in shaping the discourse around open borders and migration within the European Union (EU)**, particularly during the 2015 European migrant crisis.

Pope Francis' Role:

Pope Francis' Advocacy for Migrants:

- *Pope Francis* has been a **vocal advocate for refugees and migrants, emphasizing compassion and responsibility for those fleeing war and persecution**. Since his papacy began in 2013, **Francis has consistently urged European leaders to welcome migrants and provide them with protection**. His speeches, homilies, and symbolic acts—such as his visit to the Italian island of *Lampedusa* in 2013, where he commemorated migrants who died crossing the Mediterranean—have highlighted the moral imperative to assist those in need.
- Pope Francis has condemned the "globalization of indifference" towards the suffering of migrants and criticized nationalism and xenophobia, **indirectly influencing public opinion and political leaders within the EU, including Merkel, to adopt more humane policies towards migrants**.

Francis and Merkel:

- Both leaders share common ground on the issue of migration. Merkel has praised Pope Francis for his advocacy, **and they have met multiple times to discuss global challenges**, including migration. Francis' moral stance may have bolstered Merkel's resolve during the migrant crisis, although the Pope does not directly influence EU policy.

Conclusion:

While *Angela Merkel* was directly involved in shaping EU migration policy through her government's actions, particularly during the 2015 migrant crisis, *Pope Francis* has played a more symbolic and moral role. Merkel's "open door" policy reflected a political decision that had significant repercussions for the EU, whereas Francis' involvement has been more about advocacy and urging European countries to show compassion and solidarity with migrants. **Both have contributed to the broader discourse on migration and open borders in Europe, albeit from different perspectives.**

...and **blasphemed** the God of heaven because of their
pains and their sores...
(Revelation 16:10-11)

One ordinance shall be both for you of the congregation, and also for the stranger that sojourneth with you, an ordinance for ever in your generations: as ye are, so shall the stranger be before the LORD. **One law and one manner shall be for you, and for the stranger that sojourneth with you.**

(Numbers 15:15-16)

For many **deceivers** are entered into the world, **who confess not** that Jesus Christ is come in the flesh. This is a deceiver and an antichrist. Look to yourselves, **that we lose not those things which we have wrought**, but that we receive a full reward. Whosoever transgresseth, and abideth not in the doctrine of Christ, hath not God. He that abideth in the doctrine of Christ, he hath both the Father and the Son. **If there come any unto you, and bring not this doctrine, receive him not into your house, neither bid him God speed:** For he that biddeth him God speed is partaker of his evil deeds.

The **flooding** of Europe with refugees has become a situation so divisive that it has been questioned whether this will mark “the downfall of the European Union.”^[1] The refugees are not poor, docile victims. The majority of them are young men from Syria who have demonstrated their intent to storm Europe by force, which means they are actually better described as an unorganized army than as refugees or immigrants. Furthermore, they are coming primarily from Syria, the home of the ISIS headquarters.

Is it not strange? Does it not sound like a barbaric plan to take advantage of Western compassion (or even basic morality) just to turn around and execute their jihad?^[2]

Prepare for the Day of the Demon!
